Table of Contents

Executive Summary

Across the following paper we describe the planning that has been used by the team to achieve the completion of the criteria requested for the increment of the deliverable 03, as well as an estimated budget of what it would cost to pay for the development.

Revision Table

Revision	Description	Date
v3.0	Initial draft on sprint 3	09/07/2022
v3.1	Adjustments on the document	14/07/2022

Introduction

This document is an in depth showcase of our plans regarding time and costs of the sprint 3 for the DP2 subject. During this last sprint, most of the tasks revolve around the ability for the application to list and show different entities.

Contents

Deliverable 3

Task	Role	Time	Cost
FR 02: ops Principals on User Accounts	Developer	30 min	7,5 €
FR 03: ops Principals on Peeps	Developer	15 min	3,75 €
FR 04: ops Principals on Ingredients	Developer	30 min	7,5 €
FR 05: ops Principals on Utensils	Developer	30 min	7,5 €
FR 06: ops Principals on Recipes	Developer	45 min	11,25 €
FR 07: ops Principals on Bulletins	Developer	30 min	7,5 €
FR 08: ops Principals on System Configuration	Developer	30 min	7,5 €
FR 09: ops Chefs on Ingredients	Developer	30 min	7,5 €
FR 10: ops Chefs on Utensils	Developer	30 min	7,5 €
FR 11: ops Chefs on Recipes	Developer	45 min	11,25 €
FR 12: ops Chefs on Fine Dishes	Developer	45 min	11,25 €
FR 13: ops Chefs on Memorandum	Developer	30 min	7,5 €
FR 14: ops Epicure on Fine Dishes	Developer	30 min	7,5 €
FR 15: ops Epicure on Memorandum	Developer	30 min	7,5 €
FR 16: ops Epicure on Epicure Dashboards	Developer	45 min	11,25 €
FR 17: ops Administrators on System Configuration	Developer	60 min	15 €
FR 18: ops Admin on Admin Dashboards	Developer	30 min	7,5 €
NFR 02: Internationalization of moments money amounts and booleans	Developer	45 min	11,25 €

MR 12: Planning report	Analyst	30 min	12,5 €
MR 13: Progress report	Analyst	30 min	12,5 €
MR 14: Lint report	Analyst	60 min	25 €
MR 15: Test suite	Developer	360 min	90 €
MR 16: Performance report	Analyst	45 min	18,75 €
TOTAL	Does not apply	16,5 h dev 2,75 h manager/analyst	316,25 €

Cost analysis

The cost of the equipment used on this sprint was around 5700 € for a total amount of 5,2 € of amortization per day on 7 days for a total of 31,2 € on the time of the sprint, which would mean a net profit of 285,05 €

Conclusions

Again due to incompatibilities in schedules we have been forced to cut the sprint short even if some tasks are missing. This decision has been made to be able to keep working on the tasks of the next sprints, the ones that can currently work to leave as little as possible for the end of august.
